The annual business meeting of the Philathea class of the Congregational church was held last evening at the home of Mrs. E. N. Philbrick, 25 Orange street. Reports of the outgoing officers were read and the following officers were chosen for the ensuing year: President, Mrs. Ethel Wales; vice-president, Miss Susan Collins; secretary, Miss Ethel F. Newton; treasurer, Miss Belle Chandler; chairman social committee, Mrs. Philip Ellis; chairman missionary committee, Mrs. William Wheaton; chairman volunteer committee, Mrs. Elsie R. Wiley; teacher, Mrs. N. J. Morrison. In November, the 10th birthday anniversary of the class, it will hold a party and banquet in celebration of the event. For this reason, the October meeting will be omitted. After the business was transacted at last night's meeting, a social hour was spent and refreshments were served.

A goodly number of the Barre Woman's club members and friends availed themselves of the rare opportunity to hear Miss Marion Beckett of New York City, who appeared before the club yesterday afternoon in costume uniform and displayed her fine collection of war souvenirs. She was accompanied by Mrs. Dean H. Perry. Miss Ruth Wyke gave a humorous reading, which delighted her audience. A piano solo by Miss Mary Allen was most pleasingly rendered, the young lady showing much ability. The last number, a vocal solo by Mrs. Julia Cross Lawson of Montpelier, was much appreciated. Light refreshments were served and a social hour was enjoyed.

Special Band Concert To-night. Members of the Barre City band have volunteered their services to-night for another band concert, which is given for no other reason than to afford entertainment for the public in general. In view of the fact that the show, "Fair and Warner," begins at 8:15, director W. J. Gilbertson has arranged the hour so, as not to have it conflict with the opening of the show, therefore, the concert will begin at 7:15 and continue until 8:15. The band at present is in its best form of the season, for though the contract for concerts closed two weeks or more ago, the band has continued to have its weekly practices. Some excellent selections are prepared for this evening, which include several popular pieces. The program:

Emigration from the Italian colony continues, eight more Italians leaving last night for their native land. None were decided as to the extent of their stay in Italy, and apparently, are going on speculation. Two large trucks were piled high with heavy, well-bound trunks, which were all being sent to some part of Europe. In this group were Rino Scacchi and brother, Luigi, destined for Azro, Switzerland; Pietro Batuzzi, Baveno, Italy; Berte Ancilla, Parma, Italy; Pierino Galli, Loesa, Italy; Carlo Galli, Baveno, Italy; Alfonso Simonetta, Baveno, Italy; Giuseppe Berte, Caterina Berte, Baveno, Italy.

Follow the crowd on Friday night to Howland hall and see the largest one-night bazaar and dance ever held in this city. The concert which will be given at the opening includes nearly all new talent, not the same old thing over again, new songs, new dances, everything new. Come and see the two sideshows, something you will want to see more than once. It's a scream from start to finish. There will be all kinds of attractions to take up your time if you are not on the floor dancing to the excellent music which will be provided by Carroll's orchestra. Something new, indoor golf. A grand putting contest will take place, for which two handsome prizes will be given to the winners. There's a chance to play golf indoors. A handsome electric lamp will be carried home by someone that night. Who says the price of goods is high? Come to the Pochontas bazaar and dance and you will find that it is not so there. Something doing every minute. Come and bring your friends with you. Don't forget the time and place, Howland hall, Friday night, Oct. 3. A four-night fair in one.—adv.

A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product HORLICK named Malted Milk. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

"Dear Sir—It is with the greatest pleasure that I write you recommending your Wonderful Ear Oil. My mother has been deaf for over 20 years and she used two bottles of your oil, and yesterday, for the first time in over 20 years, she heard Berry's Band play in Humming Park, here. Words are inadequate to express to you the thanks of mother and myself. I am a member of the theatrical profession and very well and favorably known here and you can use my name, in recommending your Ear Oil."
